OUR VISION & MISSION

The BYOC (Build Your Own Computer) Camps and Clubs: Our 5-Year Vision

At BYOC, our vision is to develop extraordinary minority youth for impactful careers in STEM.

Founded in 2014 as part of Technology Tailor Made and becoming a nonprofit in 2017, we are a dedicated program based in Ohio with plans to expand into Kentucky and Indiana.

Our goal is to become the largest technology training hub for minority youth in the nation. Through our dynamic and inspiring programs, we aim to transform the lives and career paths of countless young participants.

BYOC's mission is to build a robust pipeline of minority talent for rewarding tech careers, igniting a lifelong passion for technology. Starting from age 9 and continuing through high school, we provide engaging and accessible experiences that demonstrate how computer science is both attainable and enjoyable for youth and their families.

Join us in empowering the next generation of tech innovators!
